

WE SWITCH RELIABLY AND SAFELY.

TRADITION AND PROGRESS.

This image shows an aerial view of a large industrial building, identified by the 'BENEDICT' logo on its side. The entire image is covered with a semi-transparent teal overlay. In the background, a cityscape is visible, featuring a prominent, large, conical roof structure. The foreground is filled with lush green trees.

Benedict

Alexander Benedict, *General Manager*

It makes me feel proud to manage an internationally successful family company in its third generation. Our customer-oriented innovations have transformed our small family company into an international market leader and a specialist in the area of switching technology. BENEDICT has been a competent supplier of high-quality low voltage switchgear for over 95 years. Our tradition of research and development has always been highly valued by our customers and is the basis for our worldwide success. With this in mind, I would like to continue expanding our international distribution network. My goal is to offer our customers reliable switching solutions of highest quality.

A stylized, handwritten signature in blue ink, consisting of a large, sweeping 'A' followed by a horizontal stroke.

Alexander Benedict
General Manager

COMPETENCE AND EXPERIENCE.

Our History.

**95 years of tradition
and progress**

In 1920 the BENEDIKT & JÄGER electrical workshop started repairing electrical machines, small switching devices and starting resistors. From the very start, customers appreciated the company's products and reliability, and thanks to high demand, we expanded our enterprise in the following years. Despite serious setbacks during the Second World War, production was quickly re-established and our growth trend continued. The high quality standards of BENEDIKT & JÄGER products continue to be appreciated by customers of BENEDICT GmbH to this day.

Engineer Max Benedict and
Georg Jäger launch the
BENEDIKT & JÄGER electrical
workshop in Vienna.

1920

BENEDIKT & JÄGER produces switches for the technological conversion from silent films to "talkies".

1930

1929

Start of contactor manufacturing
in Vienna's 5th district.

The company consolidates the production units in Vienna's 22nd district and expands the production space to 9000 m² and the office space to 1200 m².

BENEDIKT & JÄGER begins to export its products and expands its production facilities.

1976

1946

With 45 employees the company takes up production again after sustaining severe setbacks during the war.

1999

1990

BENEDIKT GmbH takes over the management of BENEDIKT & JÄGER KG as a general partner.

2000

BENEDIKT & JÄGER KG is taken over completely by BENEDIKT GmbH. The brand of BENEDIKT & JÄGER is still maintained. BENEDIKT GmbH is wholly owned by the Benedict family.

2012

BENEDIKT Swiss AG, with its headquarters in Bassersdorf, Switzerland, is founded as a subsidiary of BENEDIKT GmbH.

RELIABILITY AND SECURITY.

Our Success. Innovation with the guarantee of quality

We are experts in the production of switchgear and especially appreciated by our customers for our custom solutions. Thanks to our pioneering work in research and development, we have become a global market leader and trendsetter in the manufacturing of niche products. Our pioneering approach extended to becoming the first company in our sector to be certified in accordance with quality assurance system standard ISO9001/EN 29001 in November 1991. Our customers have always been able to rely on the performance of our products which can be delivered around the globe within the shortest lead times due to a perfectly coordinated network of international partners and quick decision-making of a privately owned and managed company.

MISSION

EXPERTISE IN CONTROL

Since 1920 we have been specialists in the design and manufacture of high-quality electromechanical low-voltage switchgear. Our expertise and specialised equipment enable us to create individual solutions for our international partners.

VISION

LEADING DEVELOPMENT SPECIALIST FOR PARTNERS AROUND THE GLOBE

Functionality, quality, reliability, sustainability, flexibility and healthy growth – Made in Austria.

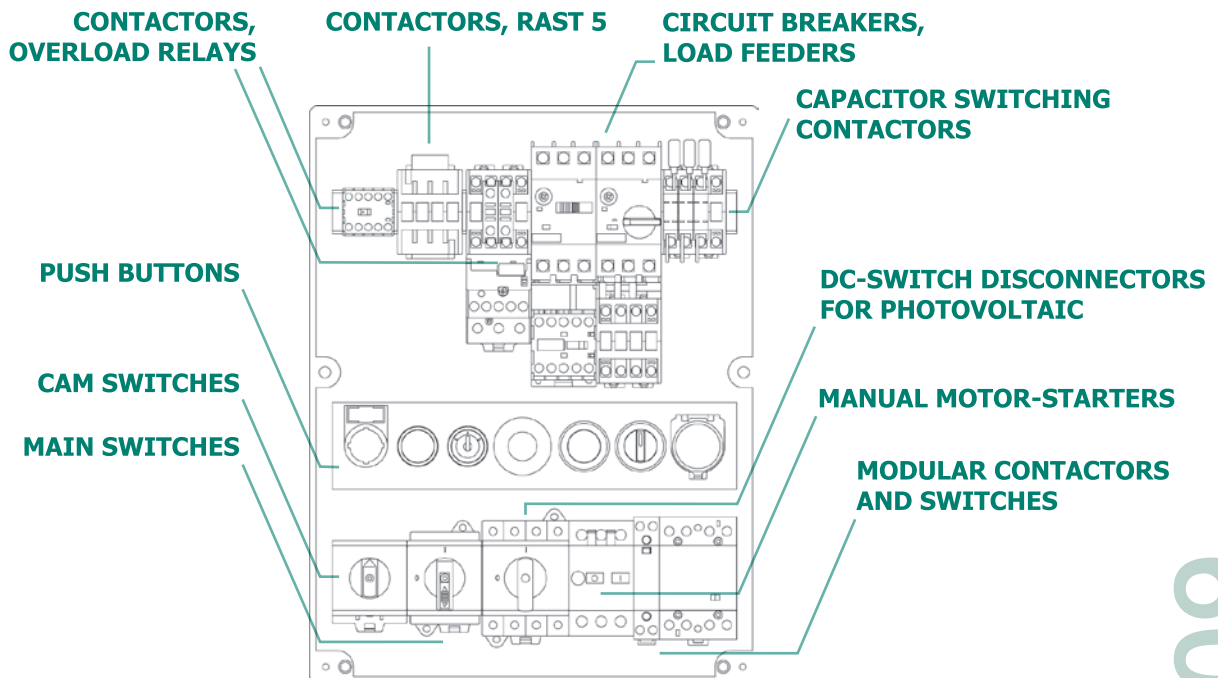

TECHNOLOGY AND PERFORMANCE.

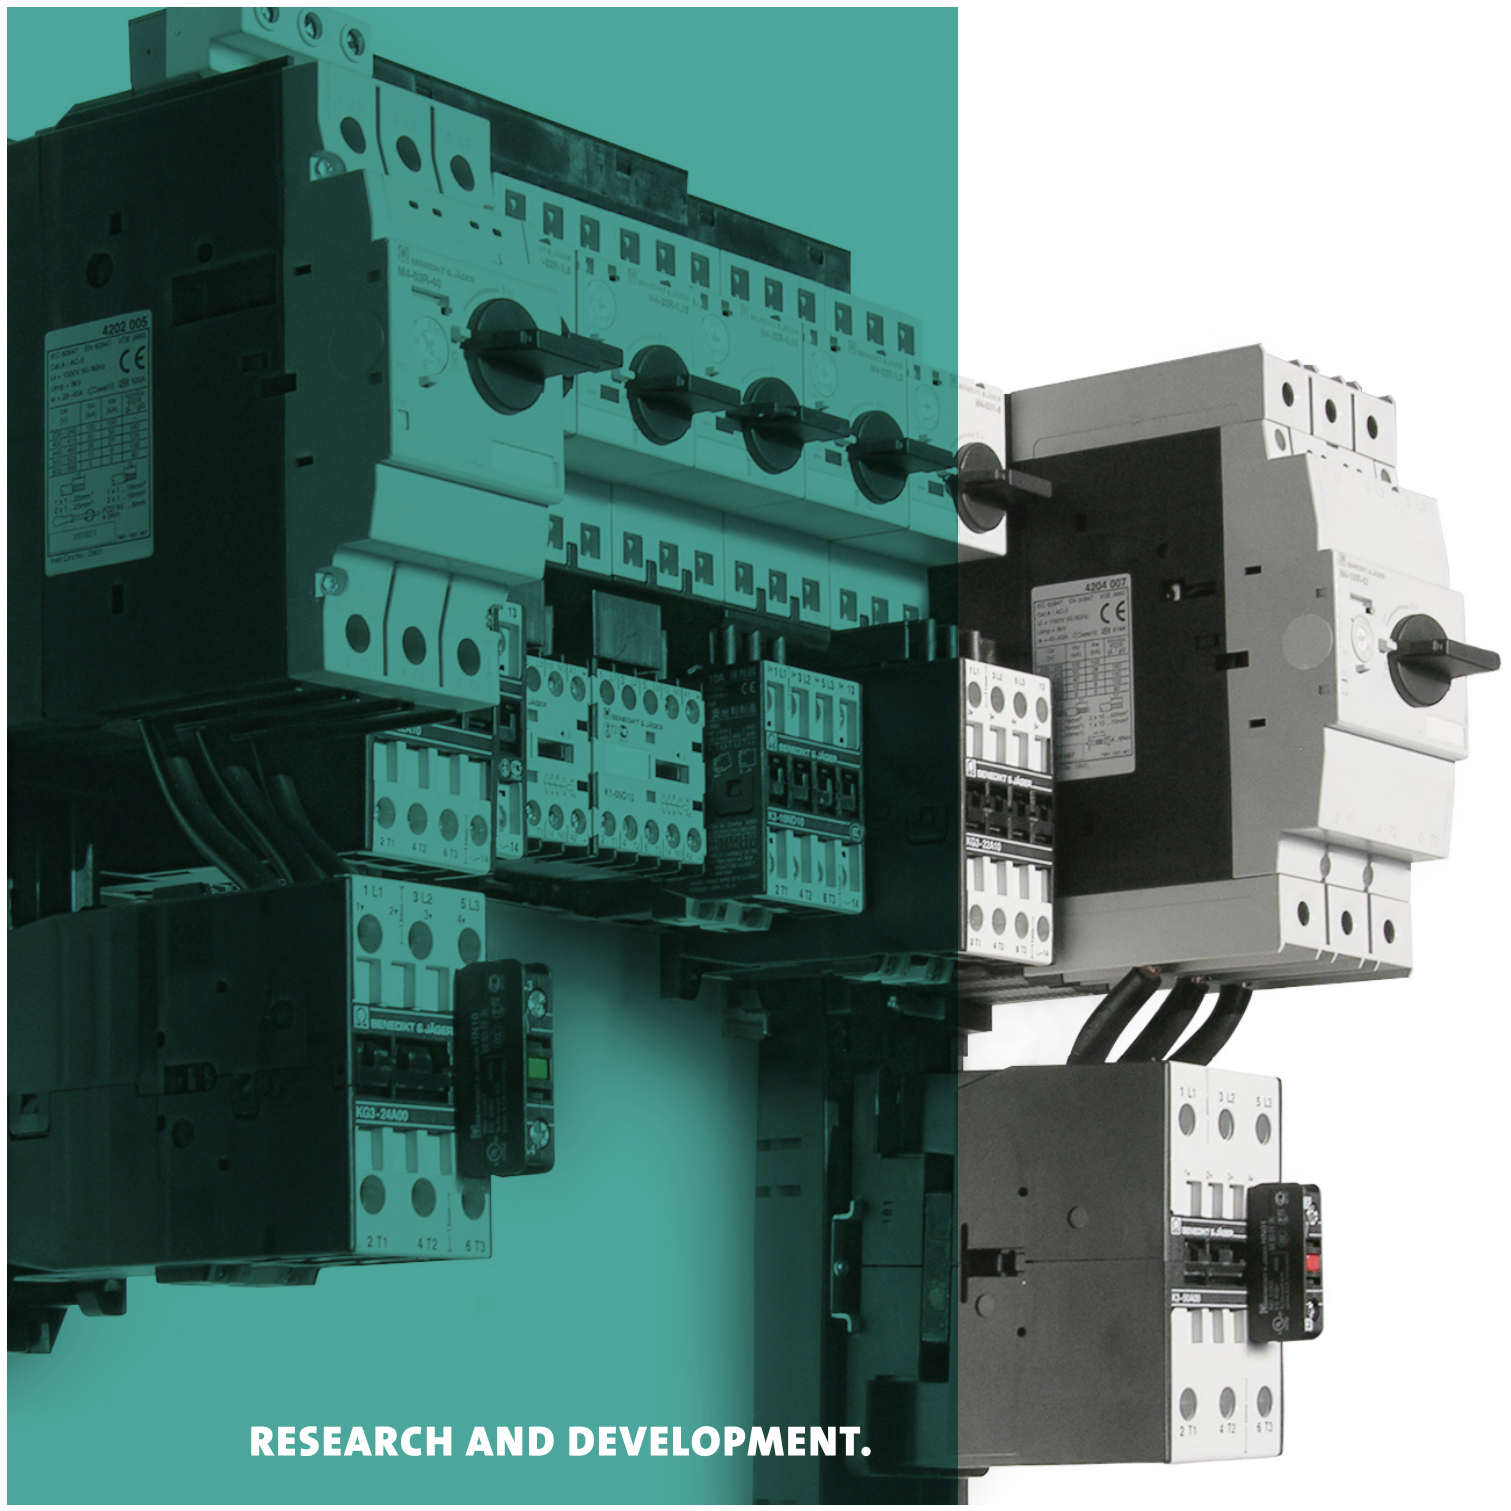

Our Product World.

Perfect technology
in all variations

We offer Contactors, Switches, Circuit Breakers and Push Buttons in thousands of product variations for countless applications. Each option can be individually selected to meet the requirements of the customer. And if the requirements exceed our existing product range, we are always happy to work closely with the customer to develop a new version that meets the most exacting specifications. All devices comply with important national regulations such as VDE and BS as well as applicable international standards such as IEC, UL, CCC and EAC. In other words, not only do they fulfil the highest quality standards, they are suitable for use all over the world.

PRODUCT PORTFOLIO

RESEARCH AND DEVELOPMENT.

Our Technology.

Pioneering work with maximum performance

Due to our dedication to research and development, we are a significant contributor to technological progress in our sector. At our headquarters in Vienna, 240 employees ensure that the latest technological developments are continuously incorporated into our products. Innovation is part of our daily business and allows us to react very quickly to market requirements. It is complimented by the robust design and high reliability that has always

*“Advanced technology
you can rely on!”*

impressed our customers. From tropical climates to deep winter conditions, the switching capacities of our Austrian-manufactured devices are approved for extreme conditions.

OUR PIONEERING WORK

- 90°C ambient temperature for industrial contactors
- Micro-contactors – the smallest safety contactors in the world
- Capacitor contactors up to 100 kVAR
- DC switch disconnectors for photovoltaics according to IEC 60947 and UL 508i
